

Dealing with Change

(School to home school edition)

What is change?

Change is when something is different.

Change makes me feel nervous.

Feeling nervous is okay. I will take 5 deep breaths.

What is going to change?

I will do school work at home instead of in my classroom.

Who will be my teacher?

My teacher will help my family teach me at home.

Where will my friends and teachers be?

My teacher and my friends will be at their homes, just like me.

Why do we have to have school at home?

We will have school at home to keep us from spreading germs.
